

STATEMENT PUBLIC PARTICIPATION

- Each month our agenda includes an item called Public Comments
- As President of the Lyme Central Board of Education, I am pleased to welcome community and staff members to our meeting.
- The Board is very interested in hearing public comment, as our role is to represent the citizens of the school district.

Therefore, I request the following:

- Regarding school related issues, every effort should have been previously made to settle the issue through the administration, based on established Board policy or administrative procedure.
- Remarks should be brief, limited to five (5) minutes and pertinent to the subject area
- Understanding that you should limit comments to your concerns with your child. No comments should be made about other students or any Lyme Central staff member during your comments.
- Reminder – please do not use any names of Lyme Central School District personnel or individual students' names during your comments.
- Your comments are important to us. The Board and/or administration will not respond to personal comments or questions during this meeting. Comments, and/or questions, may be submitted in writing to the board clerk. Following review by the Board of Education and Administration, a response will be provided by the Superintendent, prior to the next regular Board of Education meeting.

Thank you very much for your cooperation.
